We Sincerely Dedicate

this 1967 Petro-Schola to someone who has given his time, talents, and advice and caring about our future. To you who have given your share and more for what was to be done.

We thank you for the time spent during summer months and for hours spent after school working out schedules which are best suited to our interest and requirements.

We recognize your interest in Vocational Agriculture for which you were the local F.F.A. Chapter Advisor for a number of years. The success of this chapter is partly credited to you because of your interest in this organization.

We thank you as a guidance counselor for working harder yet to help each one of us to get what we need and want in college and our future.

We thank you for the sports coverage and booster for the Viking and time spent in broadcasting over the radio and writing articles in the weekly newspaper, not only for the Vikings but other sports events. We thank you for the help with the Key Club. We thank you for using your talents to help us develop ours. For your friendliness to all on and off campus, we thank you, MR. DUNN.

ARE YOU BEING EDUCATED?

Too many students think education is a filling up process. They think facts and information must be stored for future use. Education is a developing process. You must learn how to think. You must learn to use your brains in new and difficult situations.

This is more true today than ever. In this space age of computers and scientific development, today's facts will be antiquated tomorrow. One must be able to adjust to change if his education today can be used in tomorrow's world.

Therefore, if you are developing your brain into a thinking machine rather than memorizing facts, you are being educated.

County Receives New Guidance Program

A county-wide guidance program began this year with services available to Petersburg and Bayard High Schools and the six elementary schools of Grant County. Billy Ray Dunn was appointed Guidance Director to coordinate all activities in the newly formed department.

Guidance services are thought of as those designated to give systematic aid to students. In general, the program includes the following:

1. Pre-admission and orientation services.
2. Analysis of individual differences, including testing.
3. Educational, vocational, health, civic, economic and social information.
4. Counseling.
5. Keeping adequate individual inventory records.
6. Placement services.
7. Follow-up of graduates and drop-outs.

Mr. Dunn serving as full-time counselor.

High School Administration

Webster defines the word commencement as the time of commencing or beginning. As you, the class of 1967, participate in commencement exercises truly you will be commencing on the long and exciting journey of life.

By choosing to graduate from high school you have already chosen the right direction for your journey. However, up to this point in your life you have been guided by parents, teachers and friends. Now many of you will be completely on your own and the direction you choose here-after will depend entirely on you. Remember the road will not always be smooth---but because of the knowledge you have gained and the faith which you possess---your commencement can become a reality.

On behalf of the administration and faculty, I extend to you our heartiest congratulations and wish for each of you a long, successful and happy life.

Memories of the Harbor

Time goes by . . .
. . . and years do die,
Yet in our hearts
memories lie.

We shared fear, friendship
failure and fun,
Combining our efforts
to work as one.

Past laughs . . .
. . . Tears of old
. . . Memories
can't be sold.

Some sunny days
With hopes to the sky,
We'll leave the harbor
With our last goodbye.
